PROFILE

I am a passionate developer with significant experience in building modern web applications using Next.js and React. My focus is on constructing robust and highly interactive user interfaces that provide exceptional user experiences.

SKILLS

React.js

Next.js

Node.js

Tailwind

WORK EXPERIENCE

FRONT-END DEVELOPER

Freelance

March 2023 - December 2023

- I have practical experience as a frontend developer using Next.js, translating design mockups into interactive user interfaces for dynamic and responsive web pages.
- My role involved implementing features to enhance user experience and optimizing web performance, contributing to the creation of high-performance web applications.
- I collaborated closely with design and backend teams to ensure seamless integration, resulting in cohesive and functional applications.

EDUCATION HISTORY

Universidad de la Costa

Feb 2018 - Present

System Engineering

- Adept at identifying and solving complex problems, optimizing system performance, and implementing efficiency-enhancing solutions.
- Demonstrated ability to collaborate across multidisciplinary teams, fostering effective communication to achieve seamless system integration.
